LEG

PANEL END LEG
WOOD FINISH

The Opus leg (desk and extension) is made from solid stained timber. It is equipped with 50 mm diameter aluminium finish height adjustable screw jacks.

TOP

CURVED

STRUCTURE

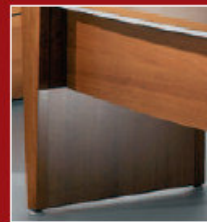

These ranges are based on a design with the 2 legs connected by a modesty panel, making the assembly extremely strong. The panels used are made from **Structurex[®]**.

STRUCTUREX[®]

The Opus top consists of a 41 mm **Structurex[®]** panel (double desk top 25 mm and 16 mm). The 1st top is protected by 3 mm thick shock-proof edging post-formed on the user side. The 2nd top is protected around the outside by 2 mm thick aluminium finish edging.

Structurex[®] panels are manufactured on a fully automated production line. They are PEFC labelled counter-balanced melamine panels with anti-reflection treatment, density 680 kg/m³, ±5 %, complying with the requirements of the Centre Technique du Bois et de l'Ameublement (CTBA).

MODESTY PANEL

STRUCTURAL MODESTY PANEL

The OPUS modesty panel consists of a 16 mm **Structurex[®]** panel, with thin edging.
