Cherry

Rosewood

Walnut

The Mod. Max furniture line is created in covered wood agglomerate with melamine in the Rosewood, Cherry and Walnut finishes.

The desks are proposed in both the shaped and straight versions. All the tops and sides are made covered in melamine and painted with semi-opaque transparent paint and equipped with perimeter frames in the same colour in Ramin and coated Mdf, 2" thick.

The End-table elements and the Extensions are instead made in MDF painted in anthracite with scratch-proof paint.

The containers are made covered in scratch-proof anthracite and equipped with feet adjustable in height. They are proposed in 2 widths and 3 heights with the possibility of superimposing and putting the elements side by side. The wood doors, tops and lateral finishing sides of the containers are covered in melamine painted with semi-opaque transparent paint. Perimeter/front frames are applied to the tops and sides in 1,10" thick in coated Ramin and Mdf in the same colour. The doors can be equipped with supplementary locks. (standard on h. 28,74" door pairs); doors in glass with side frames and filing cabinets are also available (also with anti-tilt system).

The drawer units on wheels always envisage a stationery drawer and simultaneously closing centralised lock. Both the 4-drawer version and the file holder lower drawer version (also one-piece, seamless drawer) are available. All the drawers are mounted on metal sliding guides with rollers in nylon that guarantee comfortable and silent sliding. The tops of the drawer units are covered in melamine painted with semi-opaque transparent paint and equipped with 0,70" parameter frames in the same colour.

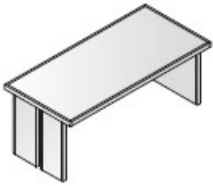

All the articles are supplied disassembled except the drawer units and the service units, packaged in rigid cardboard and perimeter protection and equipped with rapid application metal hardware.

Max available in 50mm Walnut, Rosewood or Cherry finishes
