Desks

Connecting units and extension units Conference tables

- **Sigma tops:** in 38mm-thick melamine-coated fibreboard with scratch-proof finish, ABS edge profile, 30/10 in thickness.
- **Sigma Crystal tops:** in 12 mm tempered glass with rounded rough edge.
Acid-etched glass finish.
White "cold"- lacquered glass finish.
- **Sigma metal legs:** in epoxy-enamelled ellipse-sectioned metal tube, aluminium finished.
- **Sigma Crystal metal legs:** in tubular sheet metal with oval 1.5 mm cross-section and aluminium epoxy powder-finish.
The device for fastening the top/leg consists of an 8 mm contoured plate with aluminium finish and 3 anchor points on the 30 mm diameter plates glued to the glass top with UV-ray glue.
- **Modesty panels:** optional front panel in 1mm curved sheet metal with aluminium epoxy powder-finish.

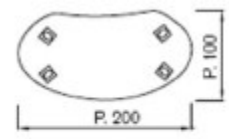

Melamine pedestal

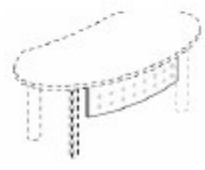

- **Structure:** in wood-fibre panels with an coloured melaminic lining, thickness 20 mm.
- **Tops and front panels:** thickness 18 mm with edge trim in 2 mm. ABS.
The drawer (thickness 12 mm) is lined in black PVC and mounted on metal guides. Universal drawer lock with two keys and key cover in ABS. Nylon castors.
The filing drawer is fitted with a frame for suspended files with widths of 33 or 39 cm.
The filing pedestal is equipped with 5 anti tilting castor.
Pen tray included

Metal drawer units

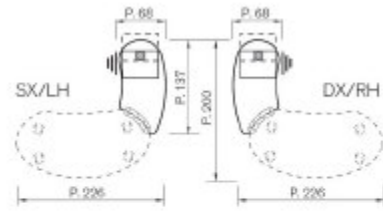

The drawer unit is entirely made of first class sheet steel, 10/10 mm. thick: one piece for all vertical body; 20/10 mm reinforcements under top and at base; epoxy powder finish.
The drawer unit is assembled on 4 black nylon swivel castors with high resistance to bumps.
The drawers are assembled on slides with nylon rollers with stop device.
The drawer unit is provided with standard an anti-tilting system and simultaneous locking of all drawers. For the file drawer version, a 5th roller has been inserted and the file frame is provided with telescopic guides for full escape function. A stationery tray has been inserted, as standard, in the first drawer. Aluminium finish.
