Affordable expertise @ www.officereality.co.uk

This lightweight, quickly and easily assembled desk has a crush weight of 900 Kilos per square foot and goes up in seconds.

All units are constructed using the latest ABS and honeycomb structure combination.

Each large panel consists of an outer high quality ABS finished surface over a lightweight steel frame with cardboard honeycomb centre.

The ABS back is then heat welded to create a lightweight hardwearing panel.

Each Small panel consists of an outer high quality ABS finished surface with cardboard honeycomb centre.

Available with a range of coloured tops this desk features grey sides and a modesty panel.

As well as being both lightweight and versatile all Ezi-Clix furniture conforms to BS Standards.
