3 choices of finish for desktops

Brown oak ML
White oak MN
Amber cherry RA

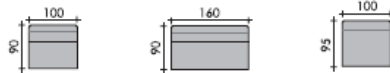

From stock

Product description

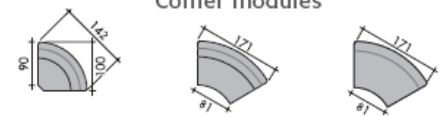

- Top**
- 25 mm thick melamine-faced particle board in 3 choices of finish: brown oak (ML), white oak (MN) or amber cherry (RA);
 - Straight edges protected by a 2 mm thick strip of ABS;
 - 12 mm thick counter tops, depth 32 cm, made from toughened glass in an acid matt finish. Counter tops have aluminium studs glued to their lower surface which are themselves attached by screws to metal spacers.
- Structure**
- Panels
 - standard front panels are made from 18 mm thick melamine-faced particle board;
 - curved front panels are made from 18mm thick melamine-faced plywood;
 - all panels are 106.8 cm in height and fitted with stabilizer feet;
 - each panel features on its visitor side a decorative trim comprising two 5 mm high horizontal PVC strips in a stainless steel finish;
 - side panels are made from 25 mm thick melamine-faced particle board in an aluminium finish with edges protected by a 2 mm thick strip of PVC. Screw fixing kits are required for assembly;
 - Intermediate tubular metal legs, of conical design in an aluminium finish, must be placed beneath the junction of adjacent desktops.

The Range

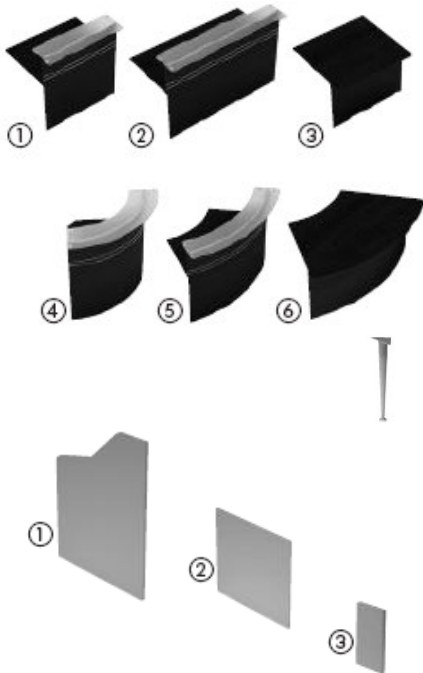

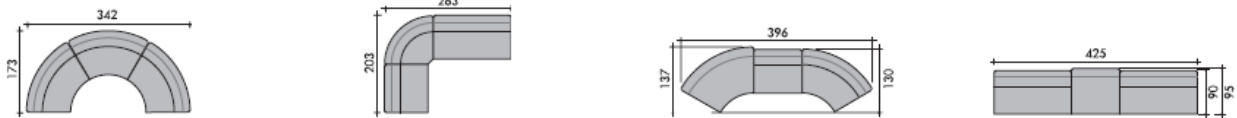

Standard modules

Corner modules

Complete configurations
