STRUCTURE

25 mm thick **Structurex**[®] panel, protected by 2 mm thick ABS edging Double 16 mm thick back panel on inside and outside. Cupboard back finished for partitioning purposes. The storage units are equipped with metal height adjustable screw jacks.

Structurex[®] panels are manufactured on a fully automated production line. They are PEFC labelled counter-balanced melamine panels with anti-reflection treatment, density 680 kg/m³, (±5 %), complying with the requirements of the Centre Technique du Bois et de l'Ameublement (CTBA).

SHELVES

Metal shelves on metal pegs adjustable every 32 mm, designed to accommodate lateral files. The shelves made of 8/10 mm metal sheet are coated with epoxy paint.

TAMBOUR DOOR

PVC double strip tambour door running in plastic rails incorporated into a groove in the structure. The terminal strip consists of an aluminium finish profile covered on the outside with a PVC top to match the tambour door.

One-point safety lock with 2 folding keys.

OPTIONS

Metal chassis for A4, Foolscap or folio suspended files, equipped with anti-tilt system (recommendation of only placing 3 chassis in a tall cupboard and 2 in a medium-height cupboard).
